OUR APARTMENTS

There's no 'one-size-fits-all' when it comes to choosing a home, so no two apartments at The Village are the same. We offer several apartment types and a range of different views for our residents to enjoy. You have the option of **one-bedroom** (299-504 square feet), **one-bedroom deluxe** (431-590 square feet), or **two-bedroom** (805-879 square feet). Each apartment has a full bath—the two-bedroom has two—and a kitchenette with a full-size refrigerator/freezer, microwave oven, sink, counter space, Vermont granite countertops and solid wood cabinetry; some of our apartments include walk-in closets and dramatic bay windows.

You can choose from views of downtown White River Junction, or the adjoining traditional residential village with its soaring church steeples, or the peaceful, verdant hillside, for the experience you value most.

We want your apartment to feel like home right away, so residents to provide their own favorite furnishings. Anyone that's ever moved to a new home knows that it can be a challenging process, but our experienced staff are available to assist you and coordinate with local moving companies and downsizing specialists to make it easy and stress-free.

MEMORY CARE

Heartfelt CONNECTIONS—A Memory Care Program®

The Village offers an Innovative, Individualized, and Integrated approach to Memory Care.

Individualized

Taking care of our loved ones diagnosed with Alzheimer's disease or another form of dementia is something many of us face. *Heartfelt CONNECTIONS®* offers customizable and individualized services to help your loved one feel more engaged with life. Our experienced and compassionate team is dedicated to helping residents live each day with as much meaning and purpose as possible.

Integrated

Your loved one's life story is at the heart of *Heartfelt CONNECTIONS®*. Using details from his or her life, we capture a lasting legacy of reminiscence: family, friends, career, hobbies, likes and dislikes. While memories fade, past relationships and experiences continue to shape your loved one's life. We use the insights gained from each life story to develop person-centered activities and programming for each resident.

Innovative

More than just a protective environment, our innovative Memory Care "Neighborhood" provides a feeling of community, purpose, satisfaction, dignity, and an enhanced quality of life.

Our highly individualized program begins with truly getting to know each resident.

DINING AT THE VILLAGE

DOWNTOWN DINING

The Village's location in the heart of White River Junction provides easy access to a fantastic range of downtown dining options. You'll find a host of great restaurants just a few steps from The Village, an easy sidewalk stroll with visiting friends or family. Residents can also order-in from any of the local restaurants:

- **Thyme**—Classic American food, like steak, salmon, and meatloaf, with some modern twists.
- **Elixir**—Combines great food and first-class hospitality in an intimate setting.
- **PieceMeal Pies**—Delicious British-style meat pies (and vegetarian options), with daily specials from locally-sourced ingredients.
- **Trail Break Taps + Tacos**—A new look at Tex-Mex favorites, using the freshest ingredients.
- **JUEL**—Great juices and smoothies, as well as soups, salads, and other specialties.
- **Tuckerbox Café**—Succulent Turkish fare, including marinated and slow-grilled kebabs.
- **Big Fatty's Barbecue**—A great salad bar, beers on tap and, of course, tasty, slow-cooked barbecued ribs and chicken.
- **C&S Pizza and Sandwiches**—Sometimes a fragrant pizza, or a hot or cold sub just hits the spot, and C&S has got you covered.
- **Phnom Penh Sandwich Station**—authentic Cambodian and Thai food using the freshest ingredients, served with pride.

“My wife Beryl and I decided to move to The Village because I like the downtown location and how I can be both a part of the community inside and outside the building.”

THE LOCAL COMMUNITY

WHITE RIVER JUNCTION

The Village is located in the heart of downtown White River Junction, a vibrant culinary, artistic and cultural hub with a historic industrial railroad just a short walk away. We like to think we have the best of all worlds—on one side the peace and quiet of a lush and verdant hillside; on another the sleepy, small-town elegance of Upper Valley houses and churches; and on the other, the energetic street-scene of artisanal shops, artists' studios and nationally renowned theater Northern Stage.

The Village community is well-loved and valued amongst the wider Upper Valley community.

LOCAL CULTURAL ATTRACTIONS & FIELD TRIPS

Regularly scheduled fieldtrips provide our residents the opportunity to visit area attractions, arts and cultural offerings and just get out-and-about in the area. Fall foliage drives and visits to Killington to watch the skiers go hand-in-hand with a stop at King Arthur Flour Café for bakery treats or a visit to see the cows at Billings Farm in Woodstock, VT.

“Keeping my mind active and stimulated is very important to me, and I selected The Village for the excellent healthcare as well as robust intellectual lifestyle.”

AWARD-WINNING DESIGN

The Village's elegant, innovative and practical design by architect Lou Bieker of Denver-based [4240 Architecture](#) and interior designer Denise Welch-May of [dpf Design](#) was awarded the prestigious top prize in the Senior Housing News Architecture and Design Awards 2019.

Our design philosophy from the beginning was to embrace local materials, textures, and styles wherever possible, to root The Village deeply within its community and to offer its residents familiarity, usability and comfort.

The layout of The Village is designed to enhance the daily life of our residents. Dining and amenity spaces are distributed throughout the building—the Windsor Dining Room looks out at street level, while Teddy's Pub and the

Cantore Terrace offer stunning views from 5th Floor. The Abbott Art Studio looks out over the lively local intersection while the Landmark Library on the floor above enjoys tranquil views of our serene wooded hillside.

As well as keeping the community active and mobile, the layout of The Village brings a much-valued variety to our daily lives, and the short journeys that our residents make between one room or activity and the next contribute to a daily feeling of accomplishment, progress, and contentment.

4240 ARCHITECTURE

Understanding that the physical structure of The Village plays a critical role in the lives to be led within, Gates and Dickson recruited leading architect Louis Bieker of Denver-based 4240 Architecture to create the living space. His firm specializes in innovative, culturally sensitive, site-specific designs, including mixed-use urban infill, multi-family residential, commercial office, active senior living, higher education, resort and hospitality. Mr. Bieker's experience ranges from museums to transit projects, from higher education facilities to mountain-resort planning and design, and his clients include Ritz-Carlton, Four Seasons, and St. Regis properties. Engaging 4240 Architecture ensured that The Village would not be a boxy, one-size-fits-all building, but rather a dynamic, active space that encourages community and blends with the neighborhood for maximal interaction.

dpf DESIGN STUDIO

Designer Denise Welch-May, a studio artist and fabric designer, co-founded dpf Design Studio, a full-service interior design firm, based on her love of material-driven artistic process and captivating interplay of color, surface, and space. The company, whose work includes the four-star Twin Farms Resort & Spa, the elegant Woodstock (VT) Inn and Resort, and the four-and-a-half-star Trapp Family Lodge in Stowe, VT, was chosen to provide custom interior design because of their ability to combine comfort, elegance, and consonance with the building's surroundings. They create a custom-crafted interior experience for senior residents that is elegant, dynamic, and engaging.
